Corporate Advisory Board

CHANDIGARH UNIVERSITY

*Redefining Education through
New-Age Innovations*

Chandigarh University is a premier institution of higher education in India built as a future-focused place of learning that collaborates with global actors in higher learning and industry to create opportunities for students and professionals to discover their strengths, develop entrepreneurial skills, and learn to rise to new challenges for addressing critical global and national issues for a bright and promising future.

With the idea of creating a world-class industry mentoring system to assist us in enabling a strong and informed future for our students, create new roadmaps for industry-oriented learning and industry-sponsored research opportunities, open smart employment pathways, and engage with international entities to amplify academic and social impact, the Corporate Advisory Board (CAB) came into being.

WE INVITE YOU
*to the Corporate Advisory
Board Meeting of 2023!*

This year, CAB embodies the national spirit and aspirations of the young generation for building a new India in Amrit Kaal by enhancing the country's technological prowess and innovation through strong linkages between industry and academia, active flow of knowledge, technology transfer, and diffusion.

The conclave will witness thought-provoking sessions to explore the contours of emerging industry trends, best practises to drive change, and scale up interventions to groom the next generation into a formidable and informed workforce. A novel concept of the "E3i Model i.e. Educate, Innovate, Implement and Impact" will also be introduced to revitalise and enhance academia-industry-government collaboration for advancing research and knowledge in Amrit Kaal.

Chandigarh University is always at the forefront of innovation and transformation. With the commitment to remain true to our positioning as a global center of excellence for research, innovation, entrepreneurship, and dissemination of knowledge, we would like to invite you to the 9th Edition of the Corporate Advisory Board (CAB) Meeting from 25th and 26th March, 2023.

25th to 26th March, 2023

Chandigarh University & The Lalit, Chandigarh

THE 9TH EDITION

cab^{b23}
Corporate Advisory Board

CAB: THE FOUNDATION OF PROGRESSIVE CHANGE

With fast-paced technological advancements continuously evolving dynamics of industry practices, it becomes imperative for academic institutions to interface with the industry and stay on point with emerging technologies, industry practices, trending professional competencies, and opportunities of employment. Chandigarh University has emerged as a pioneer towards establishing a rich Industry-Academia Interface so as to impart first-hand knowledge to its students on industry trends, requirements, and opportunities.

Chandigarh University is the 1st University in India to constitute the Corporate Advisory Board (CAB) where think-tanks of the corporate world come on board to build a roadmap for the future that benefits both – the industry and the academia towards contributing to national growth and economic prosperity of all.

With the first Corporate Advisory Board constituted in 2014, today the highly reputed body boasts of Top Corporate Leaders as its members including Presidents, Executive Vice-Presidents, Vice Presidents, MDs, CEOs, COOs, Partners, CHROs, CPOs, Directors and Executive Directors, and top HR Leaders.

THEME

Energizing Industry-Academia Collaboration in Amrit Kaal

AGENDA

Paving the way for revitalizing the long-standing industry-academia-government partnership to build a successful and resilient force and achieve the desired national goals in Amrit Kaal.

CHIEF GUEST

SH. RAJEEV CHANDRASEKHAR

Hon'ble Minister of State for Skill Development & Entrepreneurship and Minister of State for Electronics & Information Government of India

INNOVATE:

In the University and Institutions

IMPLEMENT:

By the Industries

IMPACT:

*The society for a prosperous
and sustainable Living*

**EDUCATE THE
YOUTH**

INNOVATE

**IMPACT THE
GLOBAL
SOCIETY**

**IMPLEMENT
POLICIES**

AGENDA1

EDUCATE:

Education has a massive transformational power, and the alignment of the curriculum with industry requirements remains imperative to prepare students to be future-ready. The curriculum should be aligned with industry to shape the competence and skill level of future professionals and pave the way for making India a leading service and manufacturing hub, besides advancing India's progress to become a developed nation by 2047.

AGENDA2

INNOVATE:

Innovation has been steering socio-economic development and is the key to making India a developed nation by 2047. Innovation will play a critical role in India's growth journey, and thus, a greater thrust should be on building a strong ecosystem for nurturing innovation, entrepreneurship and creating synergies between industrial and academic establishments to empower the young innovators. A robust collaboration between the two will also direct academic research and innovation outcomes toward solving current problems in society.

The focus on innovations through the collaboration of stakeholders, including industry, academia, and government, is also instrumental for advancing research and knowledge and creating a skilled workforce.

AGENDA3

IMPLEMENT:

For India to emerge as a developed nation, effective implementation of technology and innovation is the greatest tool. There is a need to reshape and strengthen the implementation approach as the key driver for economic growth and human development as India catapults itself to a higher growth trajectory.

Industry is the major pillar, which is vital to making this model successful. Cutting-edge innovations developed in educational institutions in collaboration with industry should be accepted and widely recognized as the success of any model depends on its harmonious acceptance by all the stakeholders.

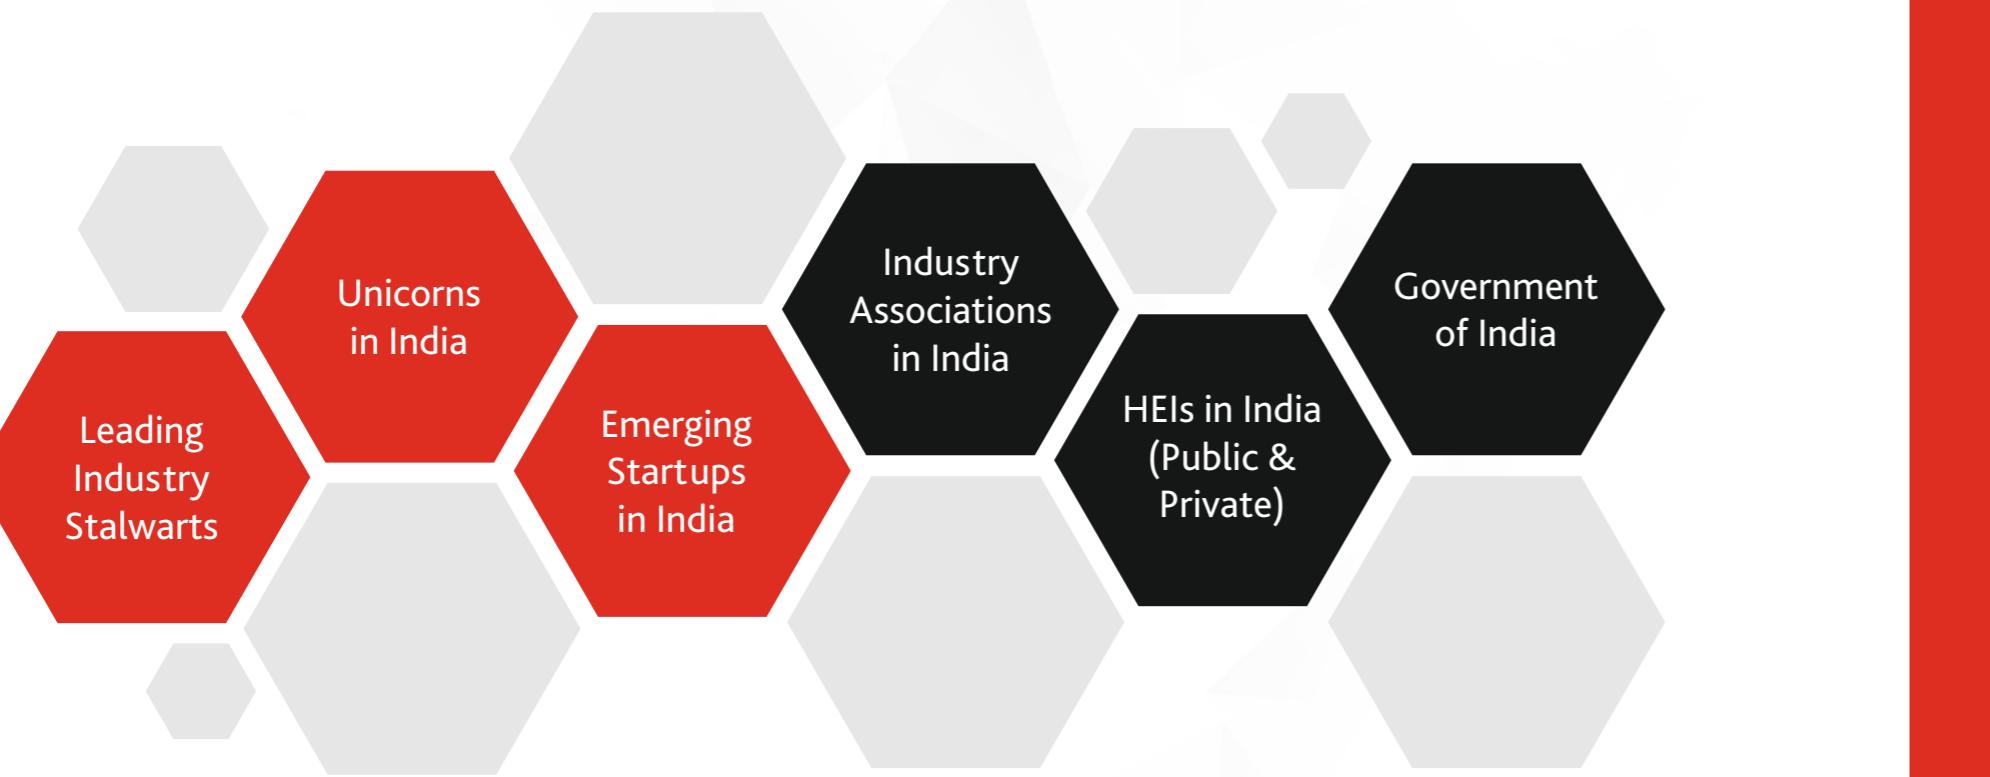

AGENDA4

IMPACT:

As we focus on implementing the previous three stages of the E3I model, a greater focus should be placed on how it impacts society. As we expand the frontiers of education, innovation, and implementation to maximise technology for inclusive and sustainable development, there is a need to evaluate the impact of these three stages on a regular basis and reshape the model at regular intervals.

TOGETHER FOR THE AMRIT KAAL
